EXPERIENCE

Simulation and Software Engineer

Taşıt Dinamiği Kontrol Teknolojileri A.Ş.

Oct 2023 – Present Bursa, TR

- Front-end development of ABS System diagnostic interface software
- Company website front-end development - tdkteknoloji.com.tr
- Interactive 3D animations for company web site using ThreeJS
- Performing real-time vehicle driving and dynamic tests with various scenarios using CarMaker/TruckMaker
- Designing test environments using real datasets for simulations
- Designing new maneuvers for simulations or transferring real scenarios to the test environment
- Preparing 3D animation videos explaining company projects to be used at technology fairs

Front-End Developer Intern

TURKER YAZILIM

Jun 2022 – Aug 2022 Bursa, TR

- Development of alternative company website.
- Creating promotional HTML emails for the company.

EDUCATION

Bursa Technical University

Computer Engineering - Master's Degree

Aug 2024 - Present Bursa, TR

Kutahya Dumlupinar University

Computer Engineering - Bachelor's Degree

Sep 2019 - June 2023 Kutahya, TR

- GPA: 3.25

PARTICIPATIONS

Exhibition Staff - TDK Teknoloji

SAHA EXPO 2026 International Defence & Aerospace Exhibition

May 2026

Exhibition Staff - TDK Teknoloji

IDEF 2025 - 17th International Defence Industry Fair

Jul 2025

Exhibition Staff - TDK Teknoloji

SAHA EXPO 2024 International Defence & Aerospace Exhibition

Oct 2024

PROJECTS

Brake Panic: Istanbul

Unity Engine / C#

A casual game set in iconic locations of Istanbul, where you control a runaway car with faulty brakes, navigating a downhill road while avoiding obstacles. I personally handled the interface design, 3D modeling, animations, and software development for this game project. It's been released on Google Play.

- Platform : Android / IOS
-

Anti-Lock Braking System Simulator

Unity Engine / C#

ABS brake simulation for passenger cars and heavy vehicles, prepared for IDEF 2025. A simplified braking simulation application designed for users with or without knowledge of ABS braking systems.

- Platform : Windows
-

Gunfight Simulator

Unity Engine / C#

A first-person shooter project featuring a realistic ballistic system, vehicle dynamics, and level design. Published on my Itch.io page.

- Platform : Windows
